GREYTON HOUSE VILLAGE SCHOOL
"a childhood to remember"

“a childhood to remember”

Greyton House Village School is an independent, co-educational school, catering for children from Grades 00–9, situated in the beautiful, authentic village of Greyton in the Overberg, Western Cape.

The school offers a fully representative curriculum presented by highly competent, dedicated teachers.

Learning within a recognised curriculum is elevated to “A Childhood to Remember” by the wholesome and secure country environment and the scope for innovation and creativity, both in teaching opportunities and in the development of the children, which this environment provides. An impromptu, open air science laboratory

or a practical lesson about alien vegetation or a clean-up of the river as a lesson about pollution, are always just a short walk or a clamber up the mountain, away.

At Greyton House, our mission is to promote the pursuit of excellence for each child, playing to the strengths of each child, resulting in confident, competent, enriched children.

Sport, clubs and private tuition in a range of activities, are also offered. Regular outings and field trips are undertaken and interschools sporting events are hosted.
